Taylor Hospital

175 East Chester Pike, Ridley Park, PA 19078

Conveniently located in Ridley Park, Taylor Hospital, a 156-bed not-for-profit community hospital, delivers a wide range of acute and specialized services to the people of Delaware County. A member of the Crozer-Keystone Health System, our experienced team of medical specialists and health professionals stand committed to providing the highest level of care using the latest technology and science. Just as we have for nearly a century.

Stuart Gordon, M.D.,
Joint Replacement
and Hip Resurfacing
Specialist

PREMIER ORTHOPAEDICS, LIBERTY DIVISION AT TAYLOR

As Pennsylvania's largest specialty orthopaedic organization, Premier Orthopaedics performs more knee and hip joint replacement procedures than anyone in Delaware County. Not surprising, considering

our doctors have also cared for professional and Olympic athletes as well as performers of the Pennsylvania Ballet. Premier Orthopaedics has joined forces with Taylor Hospital to offer a comprehensive program of musculoskeletal care including medical management, education, rehabilitation and surgery in areas including:

- ~ Orthopaedic/joint care
- ~ Sports medicine
- ~ Hand care
- ~ Outpatient rehabilitation

- ~ Foot/ankle care
- ~ Spine care
- ~ Pre-op informational classes

From your first visit to post-operative rehabilitation, the Premier and Taylor team of caring professionals provide each patient with a customized program of treatment.

Beyond traditional hip and knee procedures, our experienced doctors also specialize in implants engineered for women, implants for patients with metal allergies, and the Birmingham hip resurfacing system. Our spacious facility, an entire hospital unit, features private rooms and is dedicated to the care of patients recovering from joint replacement surgery.

To get an appointment within 48 hours, call **1-877-CK-MOTION** (1-877-256-6846), or visit us at <http://ckhshmi.crozer.org>.

We're 5 hospitals, 2,600 doctors and nurses and 7,100 caring people with 1 vision. **Crozer-Keystone.** *Something to feel good about.*

"Crozer-Keystone physicians" are those doctors who hold staff privileges at CKHS-owned hospitals. They may not be employees of CKHS or its subsidiaries.

Something to feel good about.

TO THE PEOPLE OF
DELAWARE COUNTY:

Taylor Hospital is more than a building. It is a full-service community hospital specializing in personal care for its patients, employees and neighbors.

Allen Gabroy, M.D.

We offer 75 years of experience in general and advanced surgical procedures. Our surgeons offer state-of-the-art technology such as minimally invasive and laparoscopic techniques. Our orthopaedic services include hip and knee joint replacement; hip, knee, shoulder and hand repair; arthroscopy, joint resurfacing and fracture care. Ophthalmology offers refractive correction, cataract removal and, if needed, corneal transplantation. All methods of breast and gynecological surgery, as well as general abdominal surgery, are also available.

We offer excellent coverage in general internal medicine, family medicine, cardiology (cardiac catheterization, pacemakers and acute treatment of heart attacks), neurology (treatment of sleep disorders and seizures), and rapid stroke treatment.

We also have a hospitalist program that provides inpatient physician coverage 24 hours a day to help manage your needs while in the hospital and if your primary care physician is not available.

Your safety and satisfaction are of utmost importance to us. Infection control is a major focus, and our goal is to ensure a clean and safe environment for our patients. Our team of health care professionals have adopted patient safety best practices from across the country.

At Taylor, you are a person, not a number. The next time you need medical or surgical care, use Taylor. I do.

Sincerely,
Allen Gabroy, M.D.
Chairman, Department of Surgery, Taylor Hospital

THE CROZER-KEYSTONE SLEEP CENTER AT TAYLOR HOSPITAL

Left untreated, a sleep disorder can lead to other serious health problems. Fortunately, the oldest nationally accredited sleep program in the Greater Delaware Valley is right here in Delaware County. At the Crozer-Keystone Sleep Center at Taylor Hospital, our multidisciplinary team of experienced specialists investigates and treats sleep disorders using the latest science and technology. Just like we have for 30 years.

Common sleep disorders treated at Taylor include:

- ~ Sleep apnea
- ~ Narcolepsy
- ~ Insomnia
- ~ Restless Leg Syndrome
- ~ Parasomnias
- ~ REM behavior disorders
- ~ Circadian rhythm disorders
- ~ Sleep walking, night terrors and dream problems

Recently expanded services include new offices at:

- ~ The Crozer-Keystone Sleep Center at Crozer Health Pavilion at Brinton Lake
145 Brinton Lake Road, Glen Mills, PA
- ~ The Crozer-Keystone Sleep Center at Delaware County Memorial Hospital
2100 Keystone Avenue, Suite 703, Drexel Hill, PA

Call **1-888-SLEEP03** (1-888-753-3703) today to schedule an appointment or visit us at <http://sleepcenters.crozer.org>.

INPATIENT REHABILITATION

Getting back to your old self after a surgical procedure, stroke or a musculoskeletal injury can take time and assistance. The inpatient rehab unit at Taylor uses a multidisciplinary team approach to formulate a plan for treatment, involving the patient and their family in all aspects of care. Our program, fully accredited by CARF (The Commission of Accreditation of Rehab Facilities), is designed to allow individuals who have had major medical problems to regain the highest level of function and return to the least restrictive living environment possible. Conveniently laid out over one floor for easy accessibility, recent expansions will allow our facility to provide even better care to more patients.

For more information, call the inpatient rehab unit at **(610) 595-6540**.

SURGERY

Taylor's surgical team provides personal care and attention to our patients while offering the benefits of state-of-the-art technological advances. Our highly experienced team is fully equipped to perform the latest procedures, including: Colon/Rectal Surgery, General Surgery and Ophthalmology procedures. Eye surgeons at Taylor also perform procedures that include surgery to correct disorders of the retinas as well as to treat cataracts and glaucoma.

- Surgery at Taylor Hospital—Offering Advanced Technology
- ~ Laparoscopic technology (Allows examination and surgery of the abdominal organs without large incisions.)
 - ~ Advanced laser surgical services, including treatment for kidney stones
 - ~ LigaSure™ technology: A means of vessel closure that reduces the time, amount of blood lost during surgery and postoperative pain. Taylor was the first hospital in Delaware County to offer this unique, leading-edge technology.

For a referral to a Taylor Hospital surgeon, call **1-800-CK-HEALTH** (1-800-254-3258).

Douglas Brunner, M.D.

CROZER-KEYSTONE CARDIAC CARE AT TAYLOR HOSPITAL

In Delaware County, the most trusted name for heart care is Crozer-Keystone Health System. We were the first in the county to perform open-heart surgery and primary angioplasty. The first to establish open heart and rehabilitation units. The first to have an interventional heart or electrophysiology program for heart rhythm disorders.

Taylor Hospital carries on with this tradition of offering state-of-the-art care. From diagnosis to treatment to rehabilitation, our team of cardiac physicians, nurses and health care professionals offer the skill, experience and technology needed to provide the comprehensive heart care our patients expect. Right here in their neighborhood.

Cardiology Services at Taylor Hospital include:

- ~ Renovated cardiac catheterization lab offering the latest technology
- ~ State-of-the-art dual-head gamma camera for cardiac nuclear imaging studies
- ~ Holter monitoring and defibrillator management/follow-up
- ~ Pacemaker implantation and management
- ~ Echocardiography, including:
 - ~ Transesophageal
 - ~ Stress (exercise cardiogram)
 - ~ Pharmacologic stress

For patients requiring specialized heart care, Taylor works with the heart specialists at Crozer-Chester Medical Center to offer patients electrophysiology, interventional cardiology and open-heart surgery. Once discharged, our team will coordinate a plan for rehabilitation. Taylor also has access to a critical care transport team — the only one of its kind in Delaware County. This team of specially trained paramedics accompanies patients via ambulance as they travel from one Crozer-Keystone hospital to another.

Schedule a non-invasive cardiac test by calling our toll-free number **1-866-95-PULSE** (1-866-957-8573) or visit us at <http://ckheart.crozer.org>.

Samuel Ruby, M.D.

HEART DAY AT TAYLOR

An annual health fair offering free cholesterol screenings, blood pressure screenings, heart healthy activities, information and demonstrations. This year's event is Wed., Feb. 13, 8 a.m.-1 p.m. (cholesterol screenings from 8-10 a.m., health fair from 9 a.m.-1 p.m. in Classrooms A, B and C at the hospital. Snow date is Feb. 25, same times and location.)

Please Note: fasting is required for the cholesterol screening. Nothing to eat or drink after midnight the night before.

For more information, call **1-800-CK-HEALTH**.
